ALASKA WIRELESS COMMUNICATIONS, LLC
CPNI COMPLIANCE POLICY

1. Prior to furnishing any customer proprietary network information ("CPNI"), including a voice mail password, to any party who requests it, the AWC representative handling the request shall verify the name, social security number, date of birth, driver's license number, state of license, and account password (if applicable) of the requesting party to confirm that the requesting party is the customer to whose account the request relates.
2. AWC shall only mail customer bills to the name and address identified on a customer account, and no copies of any customer bill shall be mailed to any third party. AWC shall not provide any third party with access to any customer's account information unless the customer has furnished AWC with a signed, written consent to third party access that identifies the customer's name, address, date of birth, social security number, driver's license number, state of license, and account password (if applicable). Notwithstanding the foregoing, a signed, written consent shall not be required in the event that a third party makes a request for a customer's CPNI pursuant to a lawfully issued search warrant or subpoena.
3. AWC shall train its personnel as to when they are and are not authorized to use CPNI, and shall maintain written confirmation that all personnel have received such training and understand the requirements imposed by the FCC's rules governing CPNI. In addition, AWC shall implement a disciplinary policy for all personnel relating to unauthorized use of CPNI.
4. AWC does not to engage in any sales or marketing campaign that would involve any use of its customers' CPNI. In the event that AWC decides to engage in such practices in the future, it shall abide by all the requirements imposed under 47 C.F.R. § 64.2009.
